EXECUTIVE SUMMARY

A dependable, local egg supply — ready now.

Thank you for inviting MKG Egg Farm to submit a proposal. We are a family-run layer farm in the highlands of Mokhotlong, producing **5 500 fresh eggs every day**, hand-graded into Large, Medium and Small. We propose to become a regular supplier of fresh table eggs to Shoprite, delivered on a fixed weekly schedule, graded to consistent weight bands and packed to your requirements — giving your stores a reliable, genuinely local product that reaches the shelf days fresher than eggs trucked in over long distances.

We are proposing a straightforward start: a **four-week pilot** into the stores or distribution point of your choice, followed by a standing supply agreement once quality, fill-rate and delivery performance have been proven against your standards.

5 500	≈183	38 500	100%
eggs produced every day	trays of 30 available daily	eggs per week (≈1 283 trays)	hand-graded and inspected

WHY MKG

Fresh by design

Collected daily and dispatched on a fixed rhythm. Nothing is stockpiled — every delivery carries a clear pack date and best-before date.

Consistent quality

Healthy hens on scientifically formulated iTau layer feed and clean mountain water: firm whites, deep golden yolks and strong shells.

Proudly Basotho

Farming in Mokhotlong since 2018. Buying from MKG keeps value in Lesotho and supports highland farmers through our FEPA Highlands programme.

"An egg is only as good as the day it left the farm."

01 · THE PRODUCT

Three grades, one standard.

Every egg is graded by weight into the size class below, inspected for cracks, dirt and shell defects, and only first-grade eggs are packed for retail. Weight bands follow the standard retail size classes used across Southern Africa.

GRADE	WEIGHT PER EGG	TYPICAL USE ON SHELF	PACK
Large	51 g – 59 g	Everyday family staple — the core of the egg fixture	Tray of 30
Medium	43 g – 51 g	Value tier and baking	Tray of 30
Small	33 g – 43 g	Entry price point; bakery and in-store kitchen	Tray of 30

Total output is 5 500 eggs per day across all three grades. The size mix moves naturally with flock age, so we share a **weekly grading forecast** and agree the allocation by grade with your buyer before each order cycle. Retail cartons of 6, 12 or 18 can be supplied on request.

02 · QUALITY & FOOD SAFETY

- **Collected daily**, several times a day, to protect shell quality and freshness.
- **Hand-graded and inspected** — cracked, dirty or misshapen eggs never leave the farm.
- **Balanced nutrition** from iTau Complete Lay feed, for consistent shell strength and yolk colour.
- **Cool, clean storage** on the farm and covered, clean transport to delivery.
- **Pack date and best-before date** on every tray, for full stock rotation (FIFO).
- **Open farm** — Shoprite's quality team is welcome to audit our site at any time.

03 · SUPPLY & LOGISTICS

From nest to shelf in a fixed rhythm.

1. **Order** — Shoprite places weekly order by grade
2. **Collect** — Eggs gathered daily in Mokhotlong
3. **Grade & pack** — Weighed, inspected, dated, packed
4. **Deliver** — Scheduled delivery to DC or stores
5. **Review** — Weekly fill-rate and quality check-in

Proposed schedule: two to three deliveries per week to Shoprite's nominated distribution centre or stores in Lesotho, on fixed days agreed with your logistics team. Weekly orders confirmed by an agreed cut-off; eggs delivered within **72 hours of grading**. Delivery note and invoice with every drop; any short-supply flagged to your buyer before dispatch, never on arrival.

04 · COMMERCIAL PROPOSAL

Simple, transparent pricing.

GRADE	UNIT	PER TRAY, EXCL. VAT	PER EGG
Large	Tray of 30, delivered	M _____	M _____
Medium	Tray of 30, delivered	M _____	M _____
Small	Tray of 30, delivered	M _____	M _____

Prices in Maloti (LSL), delivered to Shoprite's nominated site in Lesotho. Carton packs (6 / 12 / 18) quoted separately on request.

05 · PROPOSED TERMS

Volume	Up to 5 500 eggs a day (≈183 trays) reserved for Shoprite; grade mix agreed weekly.
Pilot	Four-week pilot at agreed volumes and stores, then a 12-month supply agreement.
Price review	Fixed for the pilot and first three months; then reviewed quarterly against feed costs, on 30 days' notice.
Payment	30 days from statement, by EFT, or in line with Shoprite's standard supplier terms.
Quality claims	Any tray not meeting grade or arriving damaged is credited or replaced on the next delivery.
Compliance	Company registration, trading licence, tax clearance and health certificate supplied at onboarding.

06 · NEXT STEPS

01
Meet
Confirm volumes, grade mix, packaging and delivery points with your buyer.

02
Audit
Shoprite quality team visits the farm or reviews our documentation.

03
Onboard
Vendor registration and agreement of pilot terms.

04
Supply
First delivery within 14 days of a purchase order.

LET'S GET STARTED

We would be proud to put MKG eggs on Shoprite's shelves.

We are ready to begin the pilot as soon as you are, and would welcome the chance to walk your team through the farm.
